# Discover & Learn

1

## Accommodation for School Groups

School trips are a valuable tool for enriching students' education by providing meaningful learning experiences, promoting personal and social development, and connecting them to the world around them in a unique and stimulating way.

Living away from home is an educational experience in itself as it fosters different types of skills in students in a non-school environment, collectively and away from their families.

2

## Discovery - Experiential Learning

It is a great way to stimulate learning and to expand student's potential.

We offer a wide range of activities that are classified according to their interest: local, regional, national or international.

The activities are mainly related to history, geography, literature, science, nature, and sports, as well as leisure activities that allow you to discover the chosen destination.

3

## Learning Consolidation

After completing discovery activities, groups can consolidate their skills in the classroom on the same day and link theoretical and practical experiences, so as to establish meaningful learning.

These sessions not only help students develop critical thinking about what they have experienced but also encourage them to actively get involved, whilst teachers can observe and evaluate how activities impact their learning and shape their pedagogical approach according to the results.

# Hello educational UK!

## Youth Hostels

The accommodations that most favour this experience are youth hostels, whose main characteristics are:

- Most of them are centrally located and renovated.
- Most of them offer catering services and leisure areas in the same building.
- The rooms are ALWAYS assigned exclusively to the group.
- Students are distributed in multiple rooms and teachers in twin or single rooms.
- Boys and girls are placed in separate rooms.
- Most of the rooms have their own bathroom (WC, washbasin and showers).
- Depending on the number of people in the group and how far in advance the booking is made, we can get exclusive use of all or part of the lodging.

Breakfast is normally available in all the accommodations, and most of them also offer dinner, lunch and take-away meals to make the most of the day.

Special diets for vegetarians, vegans, coeliacs and others are normally catered for in all establishments.

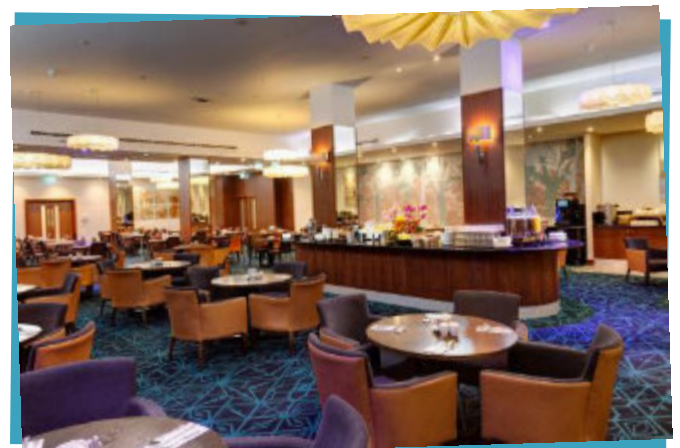

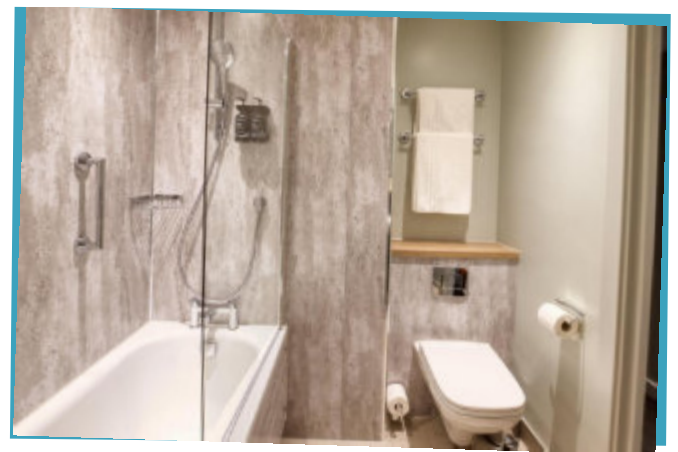

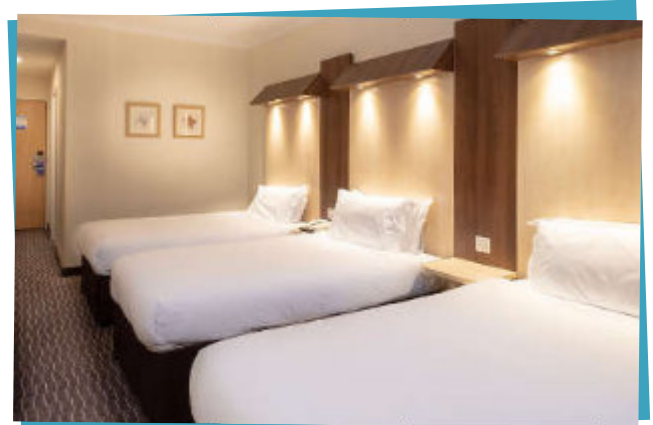

## Hotels for school groups

Groups not wishing to stay in youth hostels can stay in hotels.

We have a wide range of hotels available, with different locations and categories to suit all budgets.

Half and full board can be booked accordingly to the group's needs.

## Discovery Activities

**Explore** villages, cities, monuments, museums, castles and **areas of natural interest** by coach, on foot, by bike, river and sea cruises, etc..

## Leisure Activities

Enjoy leisure activities such as cinema, theatre sessions, thematic parks, adventure activities, etc

## Workshops

**British Education** is highly dynamic and **practical-oriented**.

Students are used to **learning outside the classroom** and this is why most of the historical and natural sites in the UK offer a **wide variety of educational activities** which match age group and contents of the British Curriculum.

These **workshops**, often organised by British Institutions and organisations, are designed for British students but **can also be attended by foreign students who follow a Bilingual Curriculum and are familiar with the topics** covered in the activities.

## ORGANISATIONAL DEADLINES

Although we are prepared to organise tailor-made trips at short notice, **it is advisable to start getting in touch with Denatravel at least 6 months prior to travelling dates** in order to have access to good value flights and a wide range of accommodation and activities.

It is a good idea to have decided whether or not you are going to go on a language trip during the previous school year (the programme, approximate age and number of students, number of accompanying teachers and almost definite price), in order to reserve services and inform the parents before the summer or as soon as the school year starts in September.

## INFORMATION

Get in touch with us and we will help you to choose the programme that is ideal for you.

We will show you the workbooks and tables used in our creative experiences and we will define your interests and priorities to draw up a customised budget without any obligation from your side.
